Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c. each.

NOTE.—Documents for sale by this office will be indicated by a star (*) following the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are, the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) following the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after

the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent. The State Department will receive drafts on New York or Washington banks, as well as money orders or currency.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented, Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

Smithsonian Institution

NOTE.—In its latest published catalogue and price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of Contributions to Knowledge, Miscellaneous Collections, and annual reports. No sets of these are for sale, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited, and is distributed to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above publications is printed for sale or exchange. For reports of the Institution or of the National Museum application should be made to Members of Congress." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports of the Institution are for exchange only. The annual report is included in the Congressional set.

NOTE.—Documents for sale by this office will be indicated by a star (*) following the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are, the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) following the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent. The State Department will receive drafts on New York or Washington banks, as well as money orders or currency.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about $17\frac{1}{2}$ inches in height by $11\frac{1}{2}$ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

NOTE.—Documents for sale by this office will be indicated by a star (*) following the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are, the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) following the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent. The State Department will receive drafts on New York or Washington banks, as well as money orders or currency.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

The Revised Statutes, edition of 1878, embraces the laws of a general and permanent nature in force December 1, 1873, and the specific amendments thereof made during the 43d and 44th Congresses. The supplements to the Revised Statutes are abridgments of vol. 18-29 of the Statutes at Large, comprising all the laws of a general and permanent nature passed during the 43d-54th Congresses.

SHEEP-BOUND RESERVE

The following information is given so that librarians may, if they choose, add to the schedule of volumes at the back of the Document Indexes of the 54th Congress the serial numbers assigned by this office to the sheep-bound reserve, the same being a continuation of those assigned in the Checklist of Public Documents.

54th Congress, 1st session

Senate documents, v. 1-15=serial numbers 3347-3361.

Senate reports, v. 1-6=serial numbers 3362-3367.

House documents, v. 1-89=serial numbers 3368-3456.

House reports, v. 1-10=serial numbers 3457-3466.

54th Congress, 2d session

Senate documents, v. 1-7=serial numbers 3467-3473.

Senate reports, v. 1-3=serial numbers 3474-3476.

House documents, v. 1-77=serial numbers 3477-3553.

House reports, v. 1-4=serial numbers 3554-3557.

In this Catalogue the serial numbers for the sheep-bound reserve are affixed in black-faced type to the entry.

Beginning with the 2d session of the 54th Congress, with the exception of a few volumes already distributed, the serial numbers will be stamped at the bottom of the sheep-bound volumes to be distributed to designated depositories.

Volumes 17 and 18, House miscellaneous documents, 53d Congress, 3d session, appeared after the Checklist of Public Documents was issued. Consequently these volumes received the numbers 3343 and 3344, which had previously been assigned to volumes 1 and 2, House reports of committees, and to these volumes the numbers 3545 and 3346 were assigned. There is, therefore, no break between the numbers assigned for the Congressional reserve of the 53d and 54th Congresses.

- Annual reports, 1897; [v. 2] report of commissioner of Indian affairs [etc.]. 1897 [1898]. viii+1068 pp. map. (House doc. 5.) 80c*

NOTE.—Changes have been made in the title-pages of the several volumes of the report of this Department, beginning with that for 1897, as follows: 1. The volume number has been omitted. 2. The wording has been changed to "Annual reports," etc. 3. Of the 3 editions heretofore published, the Departmental, the Congressional, and the Message and documents edition, the latter, that bearing on its title-page the words, "Being part of the message and documents communicated to the 2 Houses of Congress at the beginning of the — session of the — Congress," has not been published. This change reduces the 4 editions in which the several bureau reports forming separate volumes of the Department report have heretofore appeared to 3. Further facts, so far as known, may be stated as follows: The General Land Office report has not yet appeared in a bureau edition. The Indian Bureau report appears in 2 different forms, each with the same title-page; see note under Indian Bureau, Report. The Geological Survey report appears in all of the 3 editions now published, namely, Bureau, Departmental, and Congressional. The Bureau of Education report has not yet appeared.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

INDIAN BUREAU

[66th] report of commissioner of Indian affairs.

NOTE.—The bureau edition of the report of the Commissioner of Indian Affairs, which appeared in February, was erroneously entered in the catalogue as identical with the Congressional and Departmental editions, viz., volume 2 of the report of the Interior Department and House document 5. Where these three editions are identical in contents, the difference being only in title-page, they are combined in one entry in the monthly catalogue, though not in the annual catalogue. See February catalogue, page 121, where, in the entry for the 66th report of the Commissioner of Indian Affairs, the parentheses and words enclosed in them should be stricken out, as in this case the bureau edition is not identical in contents with the Departmental and Congressional editions; for these latter see Interior Department, annual reports, in this catalogue. The error arose from the fact that the title-page of the Departmental edition has been given to the bureau edition also, thus making 2 publications with identical title-pages, one comprising viii + 604 pages, the other viii + 1063 pages. The additional pages in volume 2 of the Interior Department report and House document 5 contain the proposals for Indian supplies and the report and proceedings at Lake Mohonk of the board of Indian commissioners, with a little matter besides.

PATENT OFFICE

NOTE.—The Patent Office publishes specifications and drawings of patents, both in single copies and monthly volumes, the former at 5c and the latter at \$5.00. The former are not enumerated in this catalogue. For certified copies of patents, including specification, drawing, certificate, and grant, the price is 80c. A variety of indexes, giving a complete view of the work of the office from 1790 to date, are published at prices ranging from 25c to \$10.00 per volume. The Rules of Practice and pamphlet Patent Laws are furnished free. The Patent Office issues coupon orders in packages of 20 at \$1.00 per package, or in books containing 100 coupons at \$5.00 per book. One coupon will procure a specification with drawings, and two coupons a copy of the Official Gazette. They are good until used. Address Chief Clerk, Patent Office.

Agriculture, Department of

NOTE.—Those publications of the Department of Agriculture which are for sale, except those of the Weather Bureau, will hereafter be supplied by the Superintendent of Documents, Union Building, Washington, D. C. For the unpriced publications application should be made to the Secretary of Agriculture. The Department has no list of addresses to which all its publications are sent. It issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them. The serial publications of the Department are not intended for general distribution. Requests for them are referred to the divisions from which they are issued, and instructions are then sent as to how the publications may be regularly secured.

Smithsonian Institution

NOTE.—In its latest published catalogue and price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of Contributions to Knowledge, Miscellaneous Collections, and annual reports. No sets of these are for sale, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited and is distributed to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above publications is printed for sale or exchange. For reports of the Institution or of the National Museum application should be made to Members of Congress." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports of the Institution are for exchange only. The annual report is included in the Congressional set.

NOTE.—Documents for sale by this office will be indicated by a star (*) following the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) following the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after

the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED.

General directions as to where documents may be procured are given in the body of the catalogue.

The Revised Statutes, edition of 1878, embraces the laws of a general and permanent nature in force December 1, 1878, and the specific amendments thereof made during the 43d and 44th Congresses. The supplements to the Revised Statutes are abridgments of vol. 18-29 of the Statutes at Large, comprising all the laws of a general and permanent nature passed during the 43d-54th Congresses.

SHEEP-BOUND RESERVE

The following information is given so that librarians may, if they choose, add to the schedule of volumes at the back of the Document Indexes of the 54th Congress the serial numbers assigned by this office to the sheep-bound reserve, the same being a continuation of those assigned in the Checklist of Public Documents.

54th Congress, 1st session

- Senate documents, v. 1-15=serial numbers 3347-3361.
- Senate reports, v. 1-6=serial numbers 3362-3367.
- House documents, v. 1-89=serial numbers 3368-3456.
- House reports, v. 1-10=serial numbers 3457-3466.

54th Congress, 2d session

- Senate documents, v. 1-7=serial numbers 3467-3473.
- Senate reports, v. 1-3=serial numbers 3474-3476.
- House documents, v. 1-77=serial numbers 3477-3553.
- House reports, v. 1-4=serial numbers 3554-3557.

In this Catalogue the serial numbers for the sheep-bound reserve are affixed in black-faced type to the entry.

Beginning with the 2d session of the 54th Congress, with the exception of a few volumes already distributed, the serial numbers will be stamped at the bottom of the sheep-bound volumes to be distributed to designated depositories.

Volumes 17 and 18, House miscellaneous documents, 53d Congress, 3d session, appeared after the Checklist of Public Documents was issued. Consequently these volumes received the numbers 3343 and 3344, which had previously been assigned to volumes 1 and 2, House reports of committees, and to these volumes the numbers 3345 and 3346 were assigned. There is, therefore, no break between the numbers assigned for the Congressional reserve of the 53d and 54th Congresses. See also note under Sheep-Bound Reserve in this Catalogue.

SHEEP-BOUND RESERVE

NOTE.—These volumes, which have been previously published in unbound form or in one or more cloth editions, are now for the first time ready for distribution in sheep binding. The number in black-faced type appended to the description of each volume is the serial number in the set of Congressional documents, as adopted in the Checklist of Public Documents issued by this office.

- ✓ 54th Congress, 1st session. Senate documents, v. 15. No. 14, 3 pts.; Congressional directory. [3361]
- ✓ — House documents, v. 45. Nos. 42, 3 pts., 288; National Soldiers' Home report, 1895; report of inspection. [3412]
- ✓ — Same, v. 81. No. 425, pt. 1; Smithsonian Institution report, 1895. [3448]
- ✓ 54th Congress, 2d session. House documents, v. 18. No. 5; Report of Secretary of Interior, v. 5, pt. 1; Education, 1896. [3494]

NOTE.—When the Document Checklist was compiled, in 1895, but 8 volumes of Census reports had been issued in the sheep set, and the compilers were not informed as to the form in which the remaining volumes were to be issued. So far as could be judged from the volumes then issued, each separate book was to be made a distinct part of volume 50, House miscellaneous documents, 52d Congress, 1st session. The only Census volume which at that time had been issued in parts in the sheep set was the Compendium, and in that case part 1 of the Compendium was published as part 3 of volume 50 and part 2 of the Compendium as part 4 of volume 50. Assuming that other parts of the Compendium would be treated on the same plan, 30 serial numbers [3008-3037] were assigned for the Census set. When the remaining volumes appeared, it was found, however, that the plan of publication had been changed. Part 3 of the Compendium was issued as part 4 of volume 50, the same as part 2, Compendium, had been. Both parts of Wealth, Debt, and Taxation were back titled as part 2 of volume 50; Insurance, 2 parts, both were part 5, volume 50; Population, 2 parts, both part 8; Transportation, 2 parts, both part 11; Manufactures, 3 parts, all part 12; Crime, Pauperism, and Benevolence, 2 parts, both part 14; Vital and Social Statistics, 4 parts, all part 18. This notation is somewhat ambiguous and misleading. As part 1 of part 5 is devoted to Life insurance, the user would be likely to assume that the following parts would treat of the same subject, and the reader who consulted part 2 of part 5, the theme of which is Fire insurance, would almost necessarily assume that part 1 must relate to the same topic. So with part 11, of which one of the parts or volumes into which it is divided treats of Land transportation and the other of Water transportation. Evidently convenience in the use of the set would have been increased by giving each volume of each part of volume 50 a distinct number. But as this was not done, and as it was not known how many parts there would be, the plan that had been begun was followed out, and but one serial number was assigned to each part. Now it is found that the completed Census takes up but 18 [3008-3025] of the numbers that had been assigned to it, leaving in the Checklist an ugly gap of 12 numbers [3026-3037], which cannot be filled up because the numbers following, up to 3588, have been assigned and cannot now be changed. It therefore seems advisable, if not necessary, to recast the serial numbers for the 11th Census set, and thus take up the 12 numbers now unused.

The serial numbers, beginning with 3008, should therefore be changed as below, following the notation of the back-titles as found on the Congressional edition of the Census volumes and reproduced herewith (see Checklist, p. 95):

3008	v. 50, pt. 1.	3023	v. 50, pt. 11, pt. 2.
3009	v. 50, pt. 2, pt. 1.	3024	v. 50, pt. 12, pt. 1.
3010	v. 50, pt. 2, pt. 2.	3025	v. 50, pt. 12, pt. 2.
3011	v. 50, pt. 3, pt. 1.	3026	v. 50, pt. 12, pt. 3.
3012	v. 50, pt. 4, pt. 2.	3027	v. 50, pt. 13.
3013	v. 50, pt. 4, pt. 3.	3028	v. 50, pt. 14, pt. 1.
3014	v. 50, pt. 5, pt. 1.	3029	v. 50, pt. 14, pt. 2.
3015	v. 50, pt. 5, pt. 2.	3030	v. 50, pt. 15.
3016	v. 50, pt. 6.	3031	v. 50, pt. 16.
3017	v. 50, pt. 7.	3032	v. 50, pt. 17.
3018	v. 50, pt. 8, pt. 1.	3033	v. 50, pt. 18, pt. 1.
3019	v. 50, pt. 8, pt. 2.	3034	v. 50, pt. 18, pt. 2.
3020	v. 50, pt. 9.	3035	v. 50, pt. 18, pt. 3.
3021	v. 50, pt. 10.	3036	v. 50, pt. 18, pt. 4.
3022	v. 50, pt. 11, pt. 1.		

This will leave number 3037 open for the Statistical Atlas, which is the only publication of the 11th Census remaining unissued. The Commissioner of Labor, in charge of the Census, in his final report, dated October 5, 1897, says that "the Final Reports of the 11th Census consist of 25 volumes." These 25, however, make 26 in the sheep set, because Occupations, which in the cloth is included in Population, part 2, is separately bound in the sheep. The Abstract of the 11th Census is not one of the parts of volume 50, House miscellaneous documents, 52d Congress, 1st session, but is issued in the Congressional set as House miscellaneous document 185, 53d Congress, 2d session, and bound in volume 1 of the House miscellaneous documents of that session. The serial number of the volume is 3229. This is the 1st edition of the Abstract, printed in 1894. The 2d edition, printed in 1896, has not been issued as a Congressional document.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

Maryland-District of Columbia-Virginia, Washington and vicinity, lat. 38° 45'–39°, long. 76° 45'–77° 15'. Scale 1:62,500, contour interval 20 ft. Edition of Apr. 1898. 19.69 × 29.5 in. 10c

New Jersey, Somerville quadrangle, lat. 40° 30'–40° 45', long. 74° 30'–74° 45'. Scale 1:62,500, contour interval 20 ft. Edition of Mar. 1898.

New York, Schenectady sheet, lat. 42° 45'–43°, long. 73° 45'–74°. Scale 1:62,500, contour interval 20 ft. Edition of Mar. 1898.

Virginia-North Carolina, Norfolk quadrangle, lat. 36° 30'–37°, long. 75° 30'–76° 30'. Scale 1:125,000, contour interval 5 ft. Edition of Jan. 1898. 17.5 × 28.31 in. 10c

Agriculture, Department of

NOTE.—Those publications of the Department of Agriculture which are for sale, except those of the Weather Bureau, will be supplied by the Superintendent of Documents, Union Building, Washington, D. C. For the unpriced publications application should be made to the Secretary of Agriculture. The Department has no list of addresses to which all its publications are sent. It issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them. The serial publications of the Department are not intended for general distribution. Requests for them are referred to the divisions from which they are issued, and instructions are then sent as to how the publications may be regularly secured.

Smithsonian Institution

NOTE.—In its latest published catalogue and price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of Contributions to Knowledge, Miscellaneous Collections, and annual reports. No sets of these are for sale, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited, and is distributed to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above publications is printed for sale or exchange. For reports of the Institution or of the National Museum application should be made to Members of Congress." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports of the Institution are for exchange only. The annual report is included in the Congressional set.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are, the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after

the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

The Revised Statutes, edition of 1878, embraces the laws of a general and permanent nature in force December 1, 1873, and the specific amendments thereof made during the 43d and 44th Congresses. The supplements to the Revised Statutes are abridgments of vol. 18-29 of the Statutes at Large, comprising all the laws of a general and permanent nature passed during the 43d-54th Congresses.

SHEEP-BOUND RESERVE

The following information is given so that librarians may, if they choose, add to the schedule of volumes at the back of the Document Indexes of the 54th Congress the serial numbers assigned by this office to the sheep-bound reserve, the same being a continuation of those assigned in the Checklist of Public Documents.

54th Congress, 1st session

Senate documents, v. 1-15=serial numbers 3347-3361.

Senate reports, v. 1-6=serial numbers 3362-3367.

House documents, v. 1-89=serial numbers 3368-3456.

House reports, v. 1-10=serial numbers 3457-3466.

54th Congress, 2d session

Senate documents, v. 1-7=serial numbers 3467-3473.

Senate reports, v. 1-3=serial numbers 3474-3476.

House documents, v. 1-77=serial numbers 3477-3553.

House reports, v. 1-4=serial numbers 3554-3557.

In this Catalogue the serial numbers for the sheep-bound reserve are affixed in black-faced type to the entry.

Beginning with the 2d session of the 54th Congress, with the exception of a few volumes already distributed, the serial numbers will be stamped at the bottom of the sheep-bound volumes to be distributed to designated depositories.

Volumes 17 and 18, House miscellaneous documents, 53d Congress, 3d session, appeared after the Checklist of Public Documents was issued. Consequently these volumes received the numbers 3343 and 3344, which had previously been assigned to volumes 1 and 2, House reports of committees, and to these volumes the numbers 3345 and 3346 were assigned. There is, therefore, no break between the numbers assigned for the Congressional reserve of the 53d and 54th Congresses.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at .05 each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is .02 each.

- Alabama, Clanton sheet, lat. 32° 30'–35°, long. 86° 30'–87°. Scale 1:125,000, contour interval 50 ft. Edition of Apr. 1891, reprinted Apr. 1898.
- Arkansas, Hot Springs special map, lat. 34° 22' 57"–34° 37' 57", long. 92° 55' 47"–93° 10' 47". Scale 1:62,500, contour interval 20 ft. Edition of Apr. 1898.
- California, Mt. Diablo quadrangle, lat. 37° 45'–38°, long. 121° 45'–122°. Scale 1:62,500, contour interval 50 ft. Edition of Apr. 1898.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

United States [contour map]. Scale 1:2,500,000. 1898, first published 1890. 49 × 76 in. 3 sheets. 60c

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below, unless otherwise stated.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

Agriculture, Department of

NOTE.—Those publications of the Department of Agriculture which are for sale, except those of the Weather Bureau, will be supplied by the Superintendent of Documents, Union Building, Washington, D. C. For the unpriced publications application should be made to the Secretary of Agriculture. The Department has no list of addresses to which all its publications are sent. It issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them. The serial publications of the Department are not intended for general distribution. Requests for them are referred to the divisions from which they are issued, and instructions are then sent as to how the publications may be regularly secured.

Smithsonian Institution

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of, 1, Contributions to Knowledge; 2, Miscellaneous Collections; 3, annual reports; 4, special papers. No sets of these are for sale or distribution, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited, and is distributed only to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above series is printed for sale or exchange. Members of Congress have copies of the reports at their disposal, and they are also for sale by the Superintendent of Documents." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports are for exchange only. The annual report is included in the Congressional set.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

LAWS OF THE UNITED STATES

By act of Congress the sale of the Revised Statutes, Statutes at Large, and pamphlet laws has been transferred from the State Department to the Superintendent of Documents. The following are the prices at which the pamphlet laws of the 1st and 2d sessions of the 55th Congress are sold. Prices will be furnished on application for Revised Statutes, Statutes at Large, and pamphlet laws prior to the 55th Congress:

Laws of 1st session, 55th Congress, 1897, pamphlet35
Laws of 2d session, 55th Congress, 1897-98, pamphlet95

DEPOSITORY LIBRARIES

The libraries noted below are depositories for all United States documents printed for distribution, including Session Laws, Statutes at Large, Revised Statutes of the United States, and the Congressional Record. Documents may be consulted by the public without charge at any of these libraries.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 53th Congress, 2d session, is to be understood.

General Information

With Reference to the Distribution of Documents

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

LAWS OF THE UNITED STATES

By act of Congress the sale of the Revised Statutes, Statutes at Large, and pamphlet laws has been transferred from the State Department to the Superintendent of Documents. The following are the prices at which the pamphlet laws of the 1st and 2d sessions of the 55th Congress are sold. Prices will be furnished on application for Revised Statutes, Statutes at Large, and pamphlet laws prior to the 55th Congress:

Laws of 1st session, 55th Congress, 1897, pamphlet35
Laws of 2d session, 55th Congress, 1897-98, pamphlet95

DEPOSITORY LIBRARIES

The libraries noted below are depositories for all United States documents printed for distribution, including Session Laws, Statutes at Large, Revised Statutes of the United States, and the Congressional Record. Documents may be consulted by the public without charge at any of these libraries.

Smithsonian Institution

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution consist of, 1, Contributions to Knowledge; 2, Miscellaneous Collections; 3, annual reports; 4, special papers. No sets of these are for sale or distribution, and most of the volumes are out of print. The edition of volumes of Contributions and Collections is limited, and is distributed only to designated public libraries and to learned institutions in this country and abroad. A small edition of some of the papers in the above series is printed for sale or exchange. Members of Congress have copies of the reports at their disposal, and they are also for sale by the Superintendent of Documents." The annual report is the only Smithsonian publication that is a public document. All the others are paid for from the private funds of the Institution. Separates from the reports are for exchange only. The annual report is included in the Congressional set.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

General Information

With Reference to the Distribution of Documents

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

The Hydrographic Office sells for 50c its "Catalogue of Charts, Plans, Sailing Directions, and other Publications." Other Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

LAWS OF THE UNITED STATES

By act of Congress the sale of the Revised Statutes, Statutes at Large, and pamphlet laws has been transferred from the State Department to the Superintendent of Documents. The following are the prices at which the pamphlet laws of the 1st and 2d sessions of the 55th Congress are sold. Prices will be furnished on application for Revised Statutes, Statutes at Large, and pamphlet laws prior to the 55th Congress:

Laws of 1st session, 55th Congress, 1897, pamphlet35
Laws of 2d session, 55th Congress, 1897-98, pamphlet95

DEPOSITORY LIBRARIES

The libraries noted below are depositories for all United States documents printed for distribution, including Session Laws, Statutes at Large, Revised Statutes of the United States, and the Congressional Record. Documents may be consulted by the public without charge at any of these libraries.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

General Information

With Reference to the Distribution of Documents

CATALOGUE DISTRIBUTION

Hereafter the monthly catalogue published by this office will be sent to Congress, heads of Departments, bureaus, institutions, school, public and college libraries only; but the names of individuals now on the list will be continued until it is necessary to drop them.

This announcement is made necessary because of the impossibility of supplying the catalogue regularly to any considerable number of persons, on account of the small edition which Congress has authorized to be printed.

Price-lists of Government publications available for sale by this office will be published from time to time for general distribution to all who may apply.

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

The Hydrographic Office sells for 50c its "Catalogue of Charts, Plans, Sailing Directions, and other Publications." Other Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

LAWS OF THE UNITED STATES

By act of Congress the sale of the Revised Statutes, Statutes at Large, and pamphlet laws has been transferred from the State Department to the Superintendent of Documents. The following are the prices at which the pamphlet laws of the 1st and 2d sessions of the 55th Congress are sold. Prices will be furnished on application for Revised Statutes, Statutes at Large, and pamphlet laws prior to the 55th Congress:

Laws of 1st session, 55th Congress, 1897, pamphlet35
Laws of 2d session, 55th Congress, 1897-98, pamphlet.....	.95

DEPOSITORY LIBRARIES

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below, unless otherwise specified.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

Arizona-Nevada-California, Camp Mohave sheet, lat. 35°-36°, long. 114°-115°. Scale 1:250,000, contour interval 250 ft. Edition of Mar. 1892, reprinted Oct. 1898.

NOTE.—Documents for sale by this office will be indicated by a star (*) preceding the price named. Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 55th Congress, 3d session, is to be understood.

General Information

With Reference to the Distribution of Documents

CATALOGUE DISTRIBUTION

Hereafter the monthly catalogue published by this office will be sent to Congress, heads of Departments, bureaus, institutions, school, public and college libraries only; but the names of individuals now on the list will be continued until it is necessary to drop them.

This announcement is made necessary because of the impossibility of supplying the catalogue regularly to any considerable number of persons, on account of the small edition which Congress has authorized to be printed.

Price-lists of Government publications available for sale by this office will be published from time to time for general distribution to all who may apply.

NO FREE DISTRIBUTION TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is authorized to distribute to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) preceding the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

The Hydrographic Office sells for 50c its "Catalogue of Charts, Plans, Sailing Directions, and other Publications." Other Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

LAWS OF THE UNITED STATES

By act of Congress the sale of the Revised Statutes, Statutes at Large, and pamphlet laws has been transferred from the State Department to the Superintendent of Documents. The following are the prices at which the pamphlet laws of the 1st and 2d sessions of the 55th Congress are sold. Prices will be furnished on application for Revised Statutes, Statutes at Large, and pamphlet laws prior to the 55th Congress:

Laws of 1st session, 55th Congress, 1897, pamphlet35
Laws of 2d session, 55th Congress, 1897-98, pamphlet95

DEPOSITORY LIBRARIES

The libraries noted below are depositories for all United States documents printed for distribution, including Session Laws, Statutes at Large, Revised Statutes of the United States, and the Congressional Record. Documents may be consulted by the public without charge at any of these libraries.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.

California, Shasta sheet, lat. 41°-42°, long. 122°-123°. Scale 1:250,000, contour interval 200 ft. Edition of Sept. 1894, reprinted Nov. 1898.
